YOUNGSTOWN SITUATION

Not One Bit Improved Over Yesterday.

M'DONALD WILL QUIT

But is Ready to Turn Franchise Over to Hogan.

Street Railway Company Can Keep Team Going by Building a Base Ball Park in That City.

Youngstown, O., Feb. 14.—In an interview yesterday Joseph McDonald, owner of the Youngstown team of the O. & P. league, said he was through with baseball and that he was willing to turn the franchise over to anybody whom he thought would make a success of the venture.

In all probability the franchise will go to Marty Hogan, the present manager of the team. If matters satisfactory to McDonald are not arranged with the street railway company.

"If there is a change that a stock company be formed to support the team, I will turn the franchise over to Marty Hogan," said McDonald. "He will be given the first chance, for I think he is deserving of it. I still hope that the street car company will reconsider the ultimatum handed down Monday night and build a park; for I would like to continue in the national game. Nobody regrets the loss of the street railway company more than I do, for I want to see baseball in Youngstown, but as the street railway people are the greatest gainers by having a team here, I do not feel I should be asked to stand any expense in the equipping of a park. I hope Youngstown will be on the baseball map and nobody wishes Marty Hogan more success than I do."

At Akron yesterday President Marion of the O. & P. league received from "Dutch" Goehner the old Cleveland shortstop an application for a berth as umpire.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

MR. ALTON PACKARD THE CARTOONIST

Will Appear in Marion Friday Evening

He is One of the Best Known Newspaper Cartoonists in America and a Clever Humorist

A term of public service extending over a dozen years, as a newspaper cartoonist, illustrator, humorist and lecturer, has made the work of Alton Packard familiar to many.

His name on a lecture course is a guarantee of genuine wholesome fun and a good laugh at the vanities and follies of mankind as seen through the eyes of the comic artist. He is a keen wit, a genial humorist, a fluent speaker and a great artist, as acknowledged by hundreds of press and personal testimonials from all parts of the country.

Mr. Packard is one of the few, always successful before audiences of varying tastes. He not only amuses and convulses us with laughter, but also gives many glimpses of beauty in art and nature that are gratifying and uplifting; creates before our eyes scenes that will live in the memory forever, scenes suggestive of beauties and truths that all have felt but few expressed.

In his style and method he is so wholly original that his imitators seem never to quite succeed in their difficult task. He carries all his necessities, easels and materials, draws and sketches on enormous canvases and sheets of paper over seven feet square. These are the largest sheets of paper made and are manufactured by the ton especially for his use. Each season all of Mr. Packard's available time is eagerly taken and numerous return engagements are, perhaps, the strongest testimonials to his popularity and success.

The cartoonist, was one day relating to a circle of friends some amusing incidents of his numerous lecture tours. "I think," said he, "the funniest occasion when a 'burly' intoxicated individual interrupted my lecture by rising and causing some commotion. Then he turned toward the platform and said to me, 'Say, mister, draw my picture.' At once I turned to the easel and drew a life size donkey, while the subject of the sketch was hastily escorted to the sidewalk by others. And the audience gave him the donkey laugh."

Mr. Packard appears here as the sixth number on the Y. M. C. A. lecture course, Friday evening, at Epworth M. E. church.

The committee announces that there is room for one hundred people in addition to those who have season tickets. The lecture will begin at eight o'clock and the doors of the church will be opened at 7:30.

**HUMAN HEARTS.**

This evening the stage of the Grand Opera House will be devoted to the presentation of the popular and highly successful play "Human Hearts" with a company of superior excellence and strength. The author of the play is an actor of wide experience from the standpoint of both the actor and spectators. His effects are produced quickly, but none the less does he hold the audience over the passions of his audience.

The play is almost too well known to require more than a passing word upon the plot. The main thread of the story centers around "Tom Logan" who is unjustly ac-
